

4.10 Individual Components

- High Fidelity and easy replacement
- Input 1: 48Vdc / 110Vdc
- Input 2: 230Vac
- Output: 230Vac
- Modularity and Redundancy N+1 of easy replacement
- Power up to 10KVA by Rack (4 Inverter Modules BRAVO 2.5KVA)
- Electronic Bypass incorporated on each unit
- Manual Bypass incorporated on the System
- Local and Remote Supervision through TSI Module
- WebServer resident on TSI Software
- Communication via TCP/IP - Optic fiber
- Warranty of 2 to 5 Years
- CE Marking
- Made in Belgium by CE+T

Bravo 2.5kVA

Application

- Power Supply Systems RM and SIP
