Alkaline Batteries

FISOCROM
power energy systems

- Large Range of Capacities
- Quick, Medium and Slow Discharges
- Great Liability without corrosion risks (sudden death)
- Constant Efficiency along the usage period
- High Longevity due to the electrochemical behaviour of the Active Materials
- Great Resistance to Extreme Temperatures and Electrical Abuses
- Low Cost of Lifecycle by not being necessary to proceed to the Battery replacement atending to its Long Lifecycle
- Warranty of 2 to 5 Years
- CE Marking
