

## Alkaline Batteries in Shelves

- Incorporation of Alkaline Batteries of: 48V/110V or 220V
- Anti-seismic metal shelf
- Anti-Corrosion and acid treatment
- Placement of various types and constructions of battery elements
- Wiring with fireproof cables free of halogens
- Stainless Steel tray for fluid retention
- Warranty of 2 to 5 Years
- CE Marking

### Application

- Medium Voltage Substations
- Hydroelectric / Thermoelectric and Combined Cycle Centrals
- Command Buildings / Transforming and Switching Stations
- Refineries and Large Industries
